Alaskan Animals

POLAR DINOSAURS

GEOLOGY ROCKS

ROCKS & FOSSILS

ICE AGE LIVING

# 2010-2011 Education Workshops

Teacher resources available on our web site, [www.alaskamuseum.org](http://www.alaskamuseum.org), beginning Oct. 1st

**G**eology Rocks: Explore in detail the formation of the Earth and how this relates to the rock cycle using our touchable stream table, land forms and rock and mineral specimens. (Grades 3-5) \*\$.50 extra per student for comet demonstration if desired. Please request when booking.

**P**olar Dinosaurs: Compare and contrast the characteristics of polar dinosaurs and dinosaurs from other parts of the world. Learn which dinos lived in Alaska millions of years ago. (Pre-k, All grades)

**B**ones: Discover and touch different types of bone, learn interesting facts, examine X-rays, cross section models, and play "CSI" with a found skeleton. (Grades 3-5, 6-8)

**L**iving in the Ice Age: Examine and learn about ancient Alaska's ice age artifacts and animals. Try mammoth hunting, mitten sowing, an ice age fashion show, and more. (Pre-k, All grades)

**NEW!** **R**ocks & Fossils: This workshop offers a more generalized view of rock types and focuses on the formation of fossils. Compare and contrast fossils through time and discover living fossils. (Grades 3-6)

**NEW!** **A**laskan Animals: Explore Alaska's animals (air, land and sea) and discover what you can learn from their poo, peepers and paws. Students will also be able to make up an Alaskan food chain. (Pre-k, k-2)

## Time

1.5 hrs/15-30 students

2 hrs/30-60 students

## Cost

Workshop: \$4/student\*
